At vælge universitet i udlandet og finde de rette fag giver dig en masse spændende muligheder, men kan samtidig virke uoverskueligt.

Vi har selv været igennem processen, og vil gerne gøre det lidt lettere for dig. Derfor kan du i venstremenuen se, hvor andre studerende fra dit studieområde har læst med hjælp fra EDU.

### Særlige forhold

EDU samarbejder med over 50 universiteter, så det kan virke uoverskueligt at finde ud af, hvor det er relevant for dig at læse.

Derfor har vi lavet en søgemaskine, så du med ganske få klik kan få overblik over dét universitet, der bedst matcher dine studieønsker.

Søgemaskinen er bygget op af nogle meget generelle hoved- og studieområder. Resultaterne er derfor generelle og skal ses som inspiration til mulige studiemuligheder fremfor en facitliste.

Hvis et universitet kommer frem på resultatlisten indenfor et bestemt studieområde, betyder det, at universitetet udbyder fag indenfor det studieområde – men det kan være alt fra ét til mange fag.

Du bør derfor altid tjekke hvilke fag, universiteterne konkret udbyder. Denne information finder du på universiteternes profiler på vores hjemmeside under fanen "Hvad kan jeg læse?".

Du klikker dig ind på universitetsprofilen ved at klikke på universitetsnavnet i resultatlisten nedenfor.

Hvis du har spørgsmål til processen, så er du altid velkommen til at ringe på 70 20 28 24 eller skrive til os på [vejledning@edu-danmark.dk](mailto:vejledning@edu-danmark.dk)

## Læs på University of California, Los Angeles (UCLA)

University of California, Los Angeles (UCLA) blev grundlagt i 1919 i Los Angeles, Californien, og er et af de højest rankede forskningsuniversiteter i USA.

Det store UCLA campus er placeret i et af de mest attraktive områder af Los Angeles kun ca. 8 km. fra Stillehavet og områder som Beverly Hills, West Hollywood, Century City og strandene i Santa Monica og Venice ligger kun en kort køretur derfra. Tre buslinier kører direkte til og fra campus, så det er nemt at komme til UCLA eller de omkringliggende områder.

UCLA er en del af University of California, som består af ti forskellige universiteter spredt over hele Californien. UCLA har ca. 40.000 studerende og er dermed det største - og også det mest kendte - af universiteterne i UC-systemet.
