Hult is recognized by business education's three most prestigious international accrediting bodies: The Association to Advance Collegiate Schools of Business (AACSB), the Association of MBAs (AMBA), and the European Quality Improvement System (EQUIS). We were the first business school in the US to achieve this triple accreditation, which is held by just 1% of business schools worldwide.

The Master's for Those Made to Do

Employers are no longer as interested in what graduates know in theory, or how well they do in exams. More than ever, employers want to see what graduates can do and are looking for people with **human skills** and adaptability. Traditional business education wasn't built for today's reality. Hult is. We believe that humans **learn best by doing**. Because mastering a skill—any skill, from riding a bike to leading a team—**takes practice**. We progress when we're working together, free to try—and fail—in a safe environment.

There are four universal capabilities you must master to be a strong, successful businessperson in any industry, economy, culture, or scenario:

1. Work in diverse teams to get things done that can't be done alone
2. Inspire, lead, and manage diverse teams
3. Communicate ideas clearly and concisely
4. Make smart decisions based on business sense

We exist to inspire and challenge our community to make an impact that matters. From our founding by one of Europe's most successful entrepreneurs, Bertil Hult, in 2003, to becoming one of the world's leading business schools over two decades—we're constantly optimizing our learning-by-doing methodology and developing a truly unique student experience.

Join the 33,000+ alumni who have forged outstanding international careers through Hult's challenge-based learning approach.

Your Campus

Hult San Francisco

📍 1355 Sansome Street, San Francisco, California 94111, USA

Renowned for Silicon Valley, tech giants, and smart startups, San Francisco is a hub for disruptors and creativity. Explore your entrepreneurial edge, hone business skills, and create lasting connections, all from our former dot-com headquarters just minutes from the San Francisco Bay waterfront.

hult.edu/masters/san-francisco 🌐 ↻

A gateway to innovation and growth

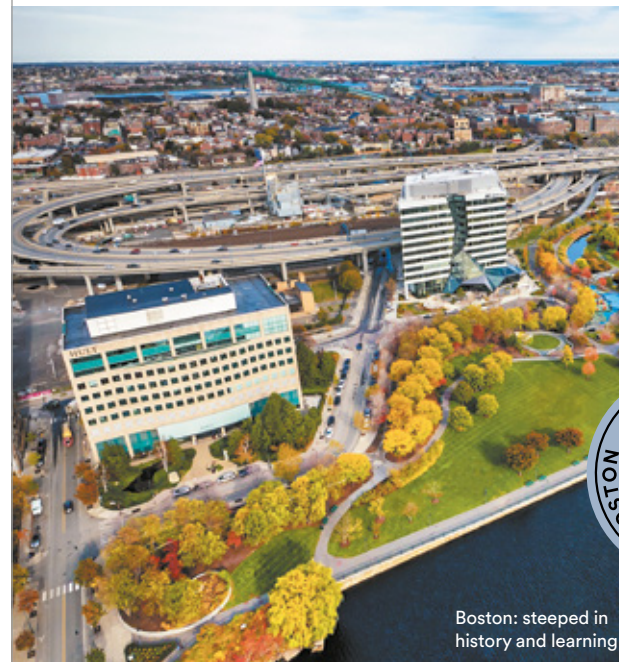

Hult Boston

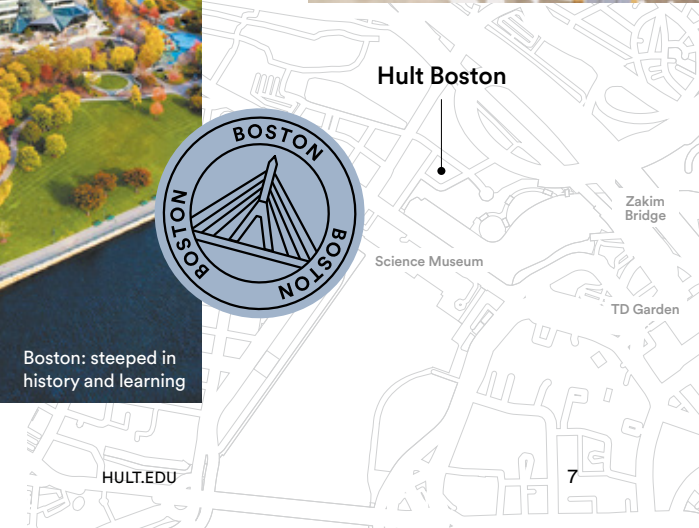

📍 1 Education Street, Cambridge, Massachusetts 02141, USA

Boston's big on learning—it's known as the most prestigious academic city in the US. Ranked the #4 US city for the most international students, it's also big on global perspective and growth mindset, key attributes for your career journey. Find us located right on the banks of the Charles River, with enviable views of downtown.

City Seminars

Boost your knowledge and network with our week-long specialist courses, hosted every summer in the business cities at the top of their game.

What to expect

Immerse yourself in a week of educational and cultural experiences, featuring:

- Virtual pre- and post-seminar sessions to ensure you get the most out of your on-site experience
- Site visits, industry-expert speakers, and on-the-ground learning opportunities
- Dynamic classroom sessions led by specialist Hult faculty
- An experiential team-based project, presentation, or individual assessment to put your learning into action

Hult facilitates continual professional development to help meet your career goals

Sample Seminars

Each city seminar counts as a one-credit elective. You can attend multiple seminars, depending on your schedule and visa requirements. Here are some city seminar examples from 2024.

Madrid

Digital Transformation of Financial Services

Be ahead of the curve as the global banking industry is redefined by digital development.

Mexico

Leading Supply Chain Analytics

A unique insight into global supply chain management from a cross-border perspective.

Mumbai

Strategic Investments in Indian Market Dynamics

Explore India's financial hub and gain insights into one of the world's most exciting investment landscapes.

Seoul

Tech, Digital Payments & Web3: The Role of Chaebol

Get an in-depth view of how 4IR is progressing and its ramifications on the economy and society.

Stockholm

Nordic Business Dynamics & Navigating Disruption, Innovation & Sustainability

Embrace innovation where progressive business practices meet dynamic global networks.

These are sample city seminars and are subject to change each summer. Find out more at hult.edu/masters/city-seminars

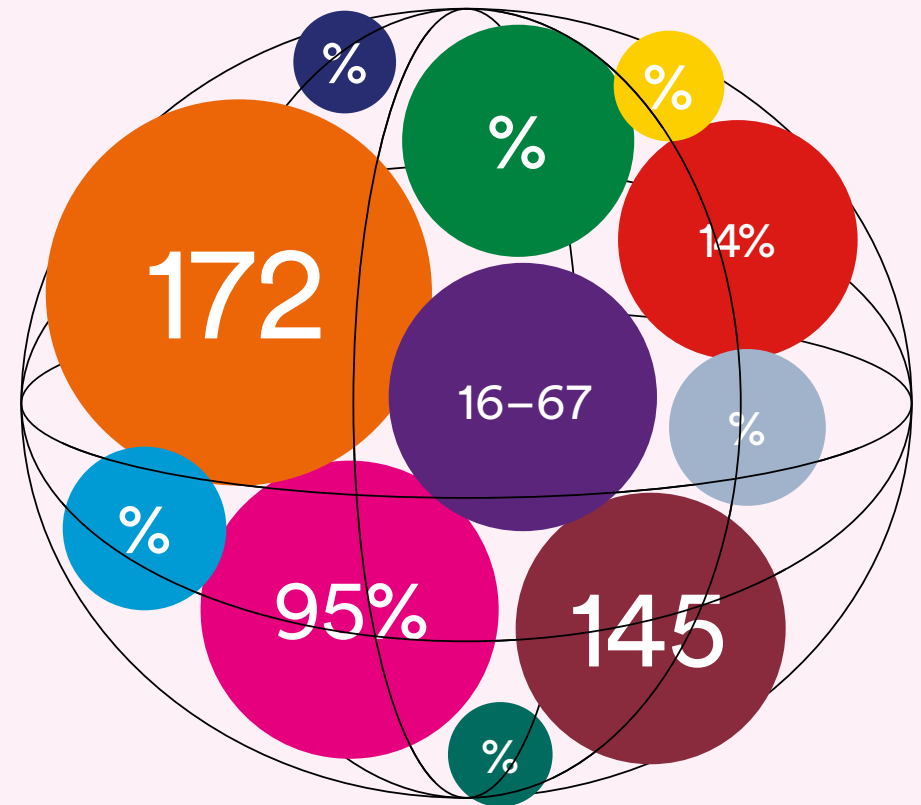

Diversity is part of Hult's DNA. We embrace different cultures, fresh perspectives, and varied skillsets, and we nurture these qualities to develop job-ready individuals.

You'll learn by experience, collaborating in diverse teams to build communication, problem-solving, and leadership skills, all while growing your network and circle by connecting within the global Hult community. After all, employers want resilient candidates able to navigate the international workplace from the get-go. At Hult, this becomes second nature.

We were awarded a **World Record for "Most Nationalities in a Business Lesson"** for 66 nationalities in one classroom in London, 2024. Diversity is our way of life.

Collaborate on a Global Scale

The value diversity brings to learning is a game-changer, and we know its positive effect on career journeys, but just how diverse is the Hult community? We'll let the facts and figures do the talking:

GLOBAL IMPACT

172 nationalities and counting in our student body

MULTICULTURAL

145 languages are spoken across our campuses

GLOBAL MOBILITY

95% of students study at an overseas campus

AGE RANGE

16-67 the age range of students

NATIONALITIES

14% of students have dual nationalities

Degrees Designed to Challenge

Accredited by the world’s three most prestigious independent bodies—AMBA, AACSB, and EQUIS—our highly practical curriculum is centered on real-world business challenges. Unlock your potential and launch a global career with a range of full-time master’s degrees that take your skills, connections, and confidence to the next level.

Practical skills require practice

We believe that humans learn best by doing. Mastering a skill—any skill, from riding a bike to leading a team—takes practice. We learn most when we’re working together, free to try—and fail—in a safe environment.

That’s why all our programs are centered around working in diverse teams to solve real-world business challenges. You’ll take the knowledge and skills you learn in class and continually test them—and yourself—

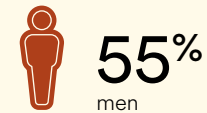

through practical application. And, just like in the real world, you’ll learn far more from failure than success.

By working in diverse teams to solve complex business problems, you continually practice what you’ll be doing in the workplace, so you arrive on the job with the ability to make an impact on day one.

Which master’s is right for you?

Work on Real-World Business Challenges

Business Challenges are project-based, faculty-led courses that occur during each core module, offering real-life scenarios for applying skills and learning.

Design a new business model, create a pitch presentation, collaborate with peers and clients on an innovation hackathon—whatever the task, put learning into practice, gaining essential experience to pack into your resume. At least one of your four challenges involves working alongside a real-world corporate client, providing valuable business insights from leaders in their field.

A degree that's like the REAL working world!

Previous Business Challenge examples include:

© BOSTON

Hilton Hotels & Resorts client challenge:

Students worked as marketing consultants, exploring consumer behavior, loyalty drivers, and competitor performance, pitching their findings and recommendations to the client.

OTHER PREVIOUS CLIENTS INCLUDE:
Accenture, Phillips, Edelman, Accion, and Sodexo.

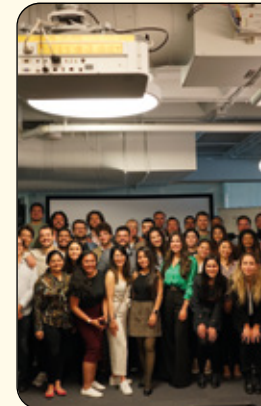

© DUBAI

Future Foundation client challenge:

Students addressed three different climate-change challenges as part of their Academic Accelerators program. They worked in diverse teams to provide solutions to the Dubai Future Foundation on food security, waste management, and air quality.

OTHER PREVIOUS CLIENTS INCLUDE:
Emirates Group, Porsche, Proctor & Gamble, and Scan Global Logistics.

© LONDON

Ferrari client challenge:

Students worked in teams to grow brand presence with new revenue streams, brand extension opportunities, and strategic partnerships, while upholding Ferrari's CSR and sustainability values.

OTHER PREVIOUS CLIENTS INCLUDE:
Unilever, UK Government, LBW Drinks Ltd, Belhaven Brewery, and PeploBio.

© SAN FRANCISCO

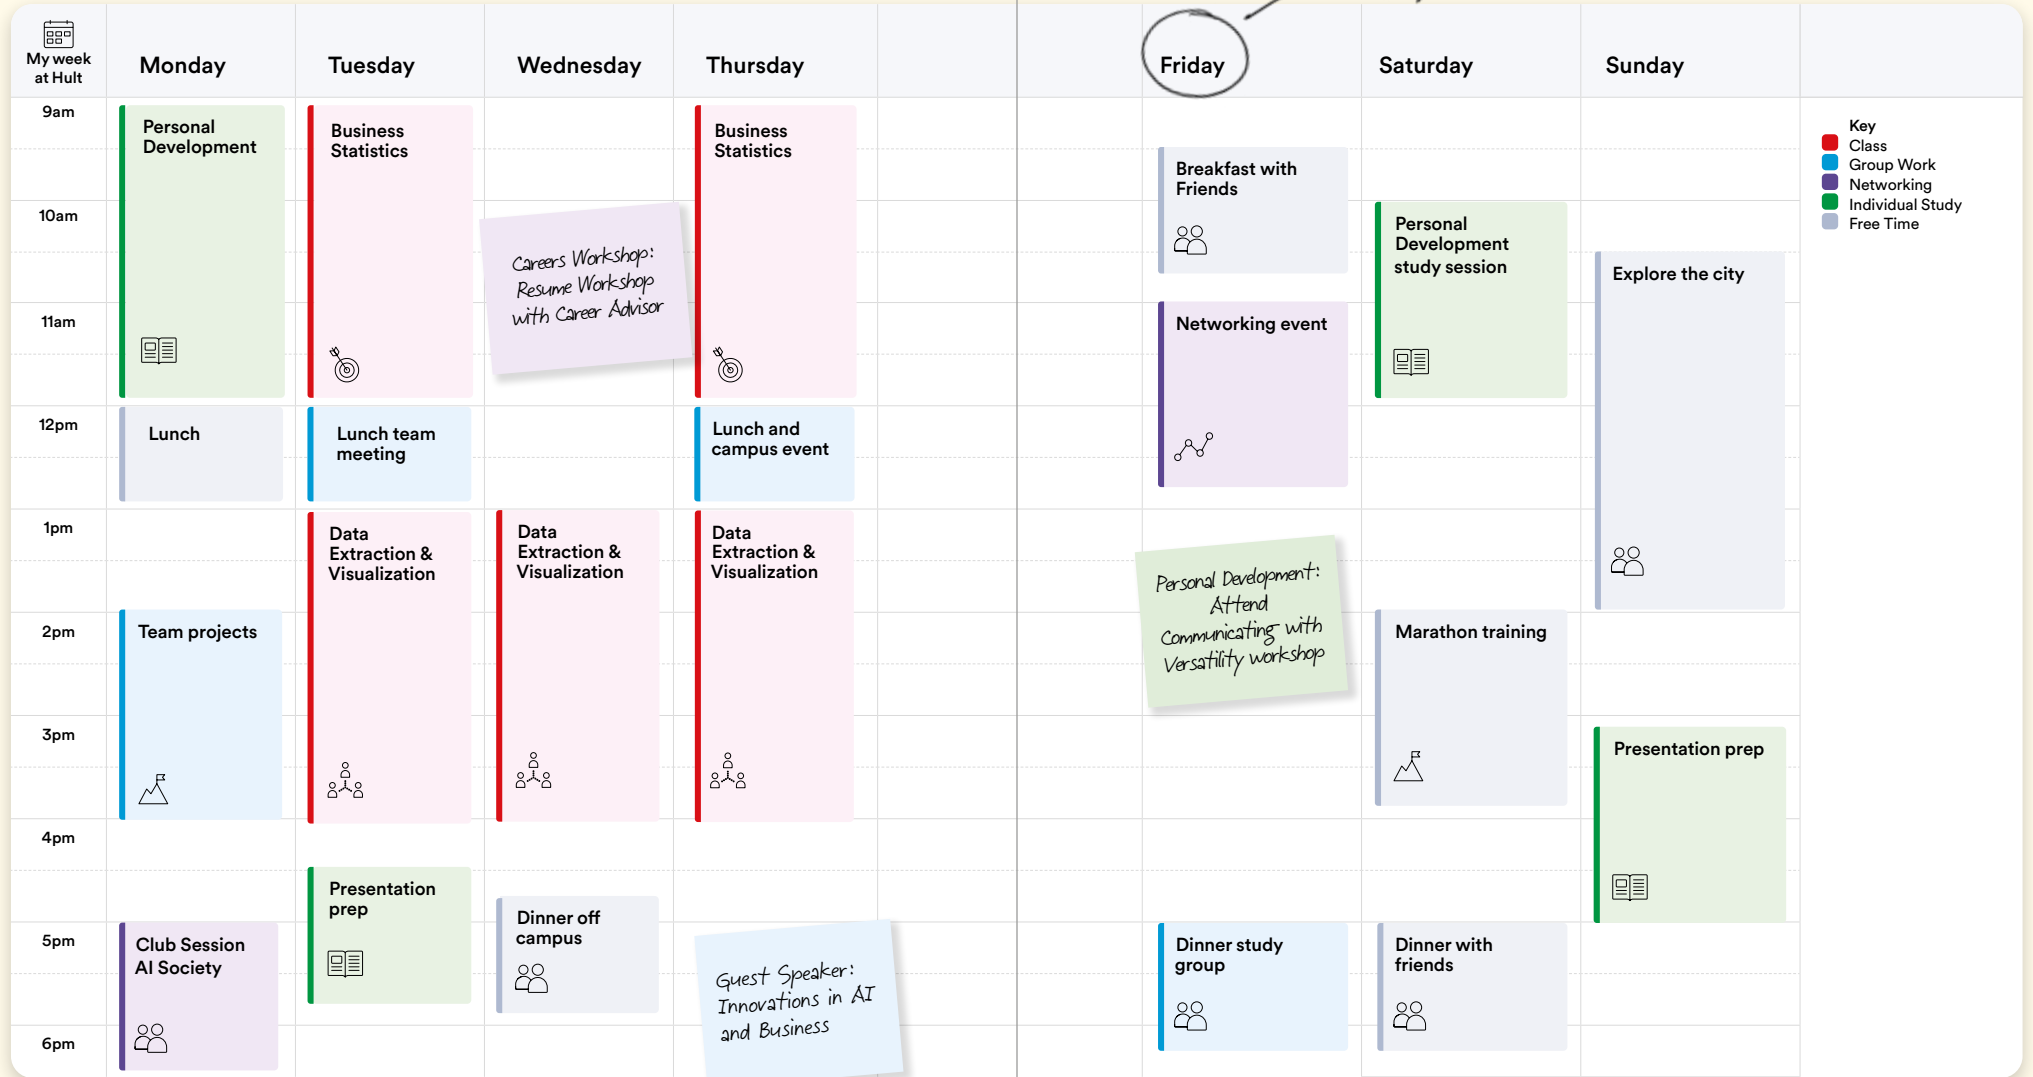

Microsoft client challenge:

Students were challenged to explore an industry vertical (such as pediatric healthcare) with the aim of identifying and defining all AI companies providing a service in that specialist area. Findings were presented as a team, with a reflective essay to summarize research findings and outcomes.

OTHER PREVIOUS CLIENTS INCLUDE:
Dollar Tree Stores, Ernst & Young, and Uphold, Inc.

What Will My Week Look Like?

*Sample weekly full-time master's schedule subject to change by course or campus.

The snapshot below shows a typical study week for our full-time master's students. Class time is balanced with plenty of opportunities to develop via team sessions, club activities, and networking, as well as time for solo study to complete program coursework.

Choose From 150+ Elective Courses

Have broad interests and wide career goals? Increase your knowledge and skills across subjects by choosing any four elective courses from the full range of 150+ courses on offer every summer.

There's so much more to learning at Hult than what happens in the classroom

When you've completed your core courses, you'll take four elective courses in the summer semester to complete your degree. This is also when you can travel, or "rotate," to different campuses. New electives are added every year to keep options up to date and relevant, and over 150 courses are available to study every summer. With so many options, you can explore a wide variety of subjects and possible career paths.

hult.edu/alumni/lifelong-learning

The Hult Dual Degree Program

Hult's Dual Degree is the ultimate skills builder. Combine your Master's in Marketing with another master's to create a solid foundation for your ideal role post-graduation—with just 18 months of study.

Dual Degree options and timings

 Discover more at hult.edu/dual-degree

Note: MMKT is the only specialized master's program that allows for a Dual Degree combination and must be taken as a first degree in order to qualify. Students taking a Master's in Management as a first degree will also have the option to take a specialized master's as a Dual Degree. Please see our website for full details.

Two Degrees, One Aim: Skill Up Faster

What to expect:

- Expedite your study and earn two degrees in just 18 months
- Earn your core degree and gain specialist knowledge from your second, creating expertise for the job you want
- Benefit from campus rotation—an opportunity to move between global campuses and broaden horizons
- Expand your personal and professional network

What jobs can I get with a Dual Degree?

Choosing the right Dual Degree combination will depend on your career goals, both immediately after graduation and in the longer term. If your target career requires specific skills, you can combine degree options accordingly.

Combinations

Hit Your Goals With Active Career Coaching

Career support at Hult is as practical and proactive as our programs—and is integrated directly into the student experience.

Experienced insider coaches

With years of on-the-ground experience as recruiters and headhunters, our coaches have insider expertise and extensive knowledge of the global job market.

Step-by-step guidance

Get personalized, job-focused advice that targets your ideal location, function, and industry and provides you with the actions you need to take to get there.

Active employer networking

From guest speakers to business challenge clients to career fairs to HQ visits, employer networking and corporate exposure are a regular part of campus life.

Practical skills & tools

Join workshops and 1-2-1 sessions on resume writing, online profiles, personal branding, interview skills, mock assessments, and more.

Integrated visa support

Understand your post-graduation work options and get end-to-end support with your visa applications, from securing your student visa to completion of your Optional Practical Training (OPT) in the US or Graduate visa in the UK.

Mandeep Sahota

Hult Career Advisor

Former Recruiter, HR & Talent Acquisition Strategist

10+ years of recruitment experience

HULT What brought you to Hult?

MANDEEP

As a recruiter, I would come across Hult students applying for roles in the companies I was working for and they stood out to me.

H What makes you well suited to advise students?

M I have looked at thousands of resumes during my career and have been involved in all aspects of the hiring cycle, from scoping out job descriptions to understanding business needs and what hiring managers are looking for, as well as what goes into the decision-making process.

H How do you work with students?

M We get to know students through 1-2-1 sessions where we identify what interests them, what their strengths are, and how they can leverage these things to achieve their goals. We have open channels of communication through workshops, drop-ins, social media, and email and encourage engagement as much as possible.

Integrated Support for Work Authorization Post-Graduation

As an international school, we are experts in supporting international students with their visas and work authorization after graduation.

Every campus has a visa and compliance team dedicated to helping you understand and obtain the relevant authorization you're eligible for.

It's important that you connect with your visa team early and remain in contact with them throughout your program. The more they know about your goals and expectations after graduation, the better they can support you.

Working in the United States after graduation

Once international students have graduated from a US campus, they can apply for US work authorization known as Optional Practical Training or "OPT."

- Master's in Marketing graduates can be eligible for one year of OPT.
- Master's in Marketing with Analytics, Master's in Finance, and Master's in Business Analytics graduates can be eligible for up to **three years of OPT**.

You should be aware that your eligibility for OPT is contingent upon completing your core program at a US campus and securing work within a field directly related to your degree. Your local visa team can help you navigate the complexities of the US visa system and understand your obligations while studying.

Working in the UK after graduation

All international students who have completed their degree in the UK can apply for the **Graduate Immigration Route**. This allows unsponsored graduates to work or look for work in the UK for up to **two years** after they graduate. Your local visa team will support you in applying for the Graduate Route.

Be a Master of Transformation

Masato Eguchi

Class of 2019
 San Francisco
 Dual Degree:
 Master's in International
 Business & Master's in
 Business Analytics

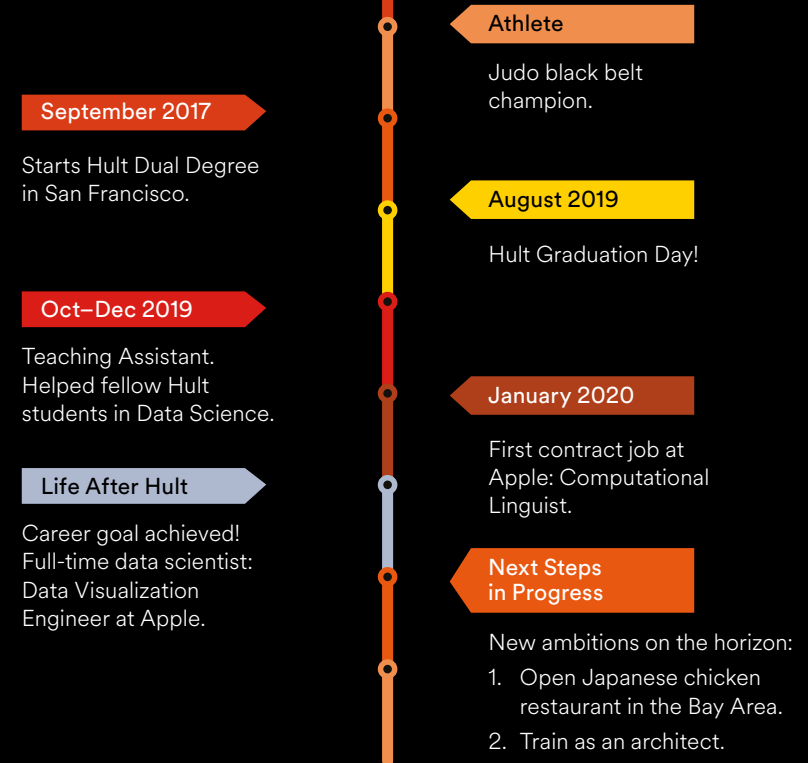

Clear goals are essential to career development, something Hult alum Masato Eguchi knows from experience. But ambition plays a part too, and with Hult's support, Masato achieved his two big career goals—to become a data scientist and work for tech-giant Apple.

Masato made a career pivot after gaining his Intercultural Communication degree from Tokyo in 2017, deciding to pursue data science instead. He knew he wanted to study overseas and Hult San Francisco ticked the boxes: a positive enrollment experience and career guidance from the get-go confirmed he'd made the right decision. Plus, he'd be located in a world-renowned tech hub.

Hult delivered the hard skills Masato needed to achieve his U-turn, and in 2019—his graduation year—he secured a contract job at Apple. However, gaining hard skills was just one factor in his career trajectory. Masato quickly realized that networking, meeting people, and building relationships—all key components of Hult's program—were even more valuable. "That's how I got here," he says.

So where is "here"? In winter 2020, just three years after leaving Japan, Masato stepped into a Data Visualization Engineer post at Apple. His two ambitions were achieved, but we know these are two of many for Masato.

Masato Eguchi

Congrats Masato on your career milestones!

Professors From the Real Business World

Omar Romero-
Hernandez, PhD

Mexico
Data Analytics & Operations
Professor

A Fulbright Scholar and Franz Edelman Award recipient, Dr. Romero-Hernandez uses his expertise to support communities with renewable energy in his native Mexico. He's led several internationally awarded projects and in 2010 was appointed leader of a national task force on economic growth and low carbon emissions, delivering recommendations to the President of Mexico.

Viktoria Dalko,
PhD

Hungary
Finance Professor

A leading academic at Harvard and CUNY, Dr. Dalko previously worked as an advisor to the president of the National Bank of Hungary and was chief of staff for the Budget, Tax, and Finance Committee of the Hungarian Parliament. She co-authored *Regulating Competition in Stock Markets* with Nobel Laureate Professor Lawrence Klein and other world-class researchers.

Achieve your professional goals under the guidance of Hult's highly respected faculty team, professors with real-world experience who know what it takes to thrive in the international business arena.

Nabanita Talukdar,
DBA

India
Marketing & Business
Analytics Professor

A business-minded marketing and consumer research analyst, Dr. Talukdar is an expert in using SAS, SPSS, PHSTAT, and Excel to develop consumer-based intelligence and KPIs that drive marketing, branding, and product strategies. Her academic achievements include an MBA, MS Corporate Finance, BS Physics & Math, and a doctoral degree in Marketing Analytics, with a focus on consumer behavior, social media, and product marketing.

Beau Giannini,
PhD

United States
Innovation & Entrepreneurship
Professor

An expert in developing technology and data management solutions, Dr. Giannini runs Ternary Intelligence, a computational finance company, and is the founder of Shanghai-based Sinomark Consulting. He previously operated two companies that developed licensing and merchandising programs for global brands and raised 40+ million USD in venture funding to develop software in partnership with IBM to streamline product development. Academic achievements include a PhD in Management Science, MBA in Global Management and Social Entrepreneurship, and a BA in Asian studies.

There's plenty to do during downtime—from social events on campus to student clubs and societies—whatever your idea of relaxation, you'll find a fit. Forge new friendships, build your professional network, and make lifelong global connections to take on your career journey.

Connect Outside The Classroom

International Finance Association

Take part in debates, team-building exercises, networking, and case study preparations, while hearing from expert guest speakers too.

AI Society

Explore the transformative potential of artificial intelligence in the business world via workshops and challenges.

Women in Business Club

An informal environment to raise awareness, share experiences, and develop strategies for men and women to tackle obstacles in the business world. Hear from guest speakers and explore achievements and challenges encountered on the path to female leadership.

Clubs offer valuable networking opportunities and a chance to expand your horizons outside the classroom

Alumni Networking

Your Hult journey continues long after you graduate. As an alum you have access to the Hult Alumni Association, a network of over 33,000 alumni in more than 170 countries around the world.

Many former Hultians have benefitted from our global network of graduates, lifelong learning options, and many ways to connect with fellow alumni and business opportunities around the world.

Need-based financial aid

If you have a demonstrated financial need, Hult may be able to help with limited need-based financial aid that is awarded on a case-by-case basis. The financial aid committee looks at the situation of each accepted student and, depending on each candidate's personal circumstances, decides if financial aid will be awarded and at what level.

Loans & government support

Financial institutions in many countries offer education financing specifically to local citizens. These loans are typically repayable after completion of the course, although terms vary widely. Depending on where you are from, you may be eligible for loan and grant opportunities offered by your government. We work with candidates to help them identify suitable financial institutions and government programs.

Payment plans

We have a variety of payment options to fit your situation, including an Early Payment discount. If you choose the Early Payment plan, you are eligible for a 2% discount on your net tuition fees after any scholarships and financial aid are deducted, providing you meet the terms.

Please reach out to our enrollment team for more information at hult.edu/contact

Program fees

Full-time master's program

58,500 USD* (Boston)

58,500 USD* (San Francisco)

45,800 GBP* (London)

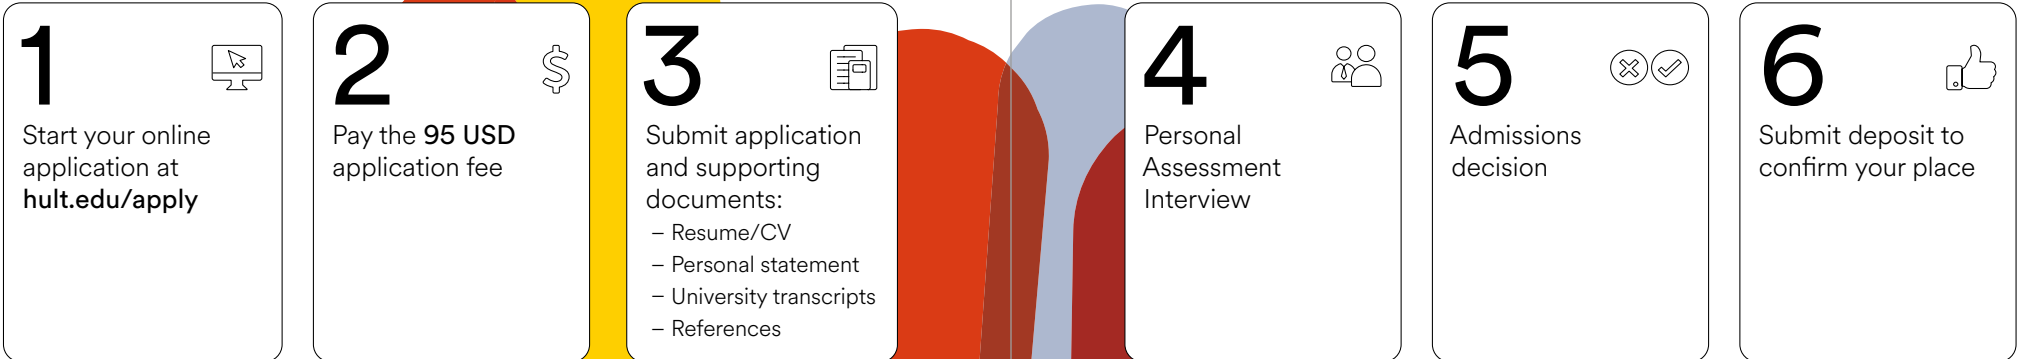

*This is indicative program pricing; other fees will apply. Please visit our website for more detailed costs.

We'll help you find the right option for financing your degree

Ready to Apply?

We are looking for dynamic, international, and open-minded individuals who have the ambition to grow and succeed in the world. Sound like you? Here's how you can join Hult:

Entry requirements

- Bachelor's degree in a business-related field OR any bachelor's degree or equivalent + one year of relevant work experience (MMKT, MBAN, MFIN)
- Less than three years' work experience
- Proficiency in English (TOEFL/IELTS/PTE/DTE)*
- Successful application process

*English test waivers may apply for native English speakers or if your bachelor's was completed in an English-speaking country. Your English test results can come later in the process if they're not available immediately.

ADMISSIONS

We have enrollment advisors in every region so you can talk directly to one of our team, wherever you are in the world

Your Personal Assessment Interview

This interview is the centerpiece of the Hult admissions process. We are a future-focused business school and this is the best opportunity you have to share your plans and dreams with us. This is the time for us to really get to know each other in person, over the phone, or via video call.

What our students say:

“The program has truly been instrumental in helping me forge stronger connections with numerous businesses and employers. I can’t wait to see where this journey takes me.”

Lufechi Agu

USA/Nigeria
Class of 2023

“Moving to a different country and attending a school with students representing 150+ nationalities has enriched my college experience. I’ve expanded my network and these individuals have become an integral part of my life. I look forward to maintaining these relationships for many more years.”

Rafael Priale

Peru
Class of 2023

“The communication and collaboration course enabled me to thrive in cross-cultural settings. Through various interactive sessions with my professors, I learned the value of active listening, how to convey ideas, and adapt communication styles to different audiences. Working in teams provided me with different techniques and strategies to lead.”

Geetha Lagadapati

India
Class of 2023
