Hult is recognized by business education's three most prestigious international accrediting bodies: The Association to Advance Collegiate Schools of Business (AACSB), the Association of MBAs (AMBA), and the European Quality Improvement System (EQUIS). We were the first business school in the US to achieve this triple accreditation, which is held by just 1% of business schools worldwide.

The MIM for Those Made to Do

Employers are no longer as interested in what graduates know in theory, or how well they do in exams. More than ever, employers want to see what graduates can do and are looking for people with **human skills** and adaptability. Traditional business education wasn't built for today's reality. Hult is. We believe that humans **learn best by doing**. Because mastering a skill—any skill, from riding a bike to leading a team—**takes practice**. We progress when we're working together, free to try—and fail—in a safe environment.

There are four universal capabilities you must master to be a strong, successful businessperson in any industry, economy, culture, or scenario:

1. Work in diverse teams to get things done that can't be done alone
2. Inspire, lead, and manage diverse teams
3. Communicate ideas clearly and concisely
4. Make smart decisions based on business sense

We exist to inspire and challenge our community to make an impact that matters. From our founding by one of Europe's most successful entrepreneurs, Bertil Hult, in 2003, to becoming one of the world's leading business schools over two decades—we're constantly optimizing our learning-by-doing methodology and developing a truly unique student experience.

Join the 33,000+ alumni who have forged outstanding international careers through Hult's challenge-based learning approach.

Students can rotate to New York for first-hand experience of this iconic East Coast city

ROTATION CAMPUS

Hult Singapore

15 Carpenter Street,
Singapore 059904

This unique island is renowned for its business culture and global attitude, attracting dynamic startups and established multinationals alike to SouthEast Asia. Hone your skills and realize your potential in a melting pot of nationalities and industries, broadening your horizons and international connections as you study.

hult.edu/masters/global-rotation

An illuminating island experience awaits students studying an elective in Singapore

City Seminars

Boost your knowledge and network with our week-long specialist courses, hosted every summer in the business cities at the top of their game.

What to expect

Immerse yourself in a week of educational and cultural experiences, featuring:

- Virtual pre- and post-seminar sessions to ensure you get the most out of your on-site experience
- Site visits, industry-expert speakers, and on-the-ground learning opportunities
- Dynamic classroom sessions led by specialist Hult faculty
- An experiential team-based project, presentation, or individual assessment to put your learning into action

Hult facilitates continual professional development to help meet your career goals

Sample Seminars

Each city seminar counts as a two-credit elective. You can attend multiple seminars, depending on your schedule and visa requirements. Here are some city seminar examples from 2024.

Madrid

Digital Transformation of Financial Services

Be ahead of the curve as the global banking industry is redefined by digital development.

Mexico

Leading Supply Chain Analytics

A unique insight into global supply chain management from a cross-border perspective.

Mumbai

Strategic Investments in Indian Market Dynamics

Explore India's financial hub and gain insights into one of the world's most exciting investment landscapes.

Seoul

Tech, Digital Payments & Web3: The Role of Chaebol

Get an in-depth view of how 4IR is progressing and its ramifications on the economy and society.

Stockholm

Nordic Business Dynamics & Navigating Disruption, Innovation & Sustainability

Embrace innovation where progressive business practices meet dynamic global networks.

These are sample city seminars and are subject to change each summer. Find out more at hult.edu/masters/city-seminars

Diversity is part of Hult’s DNA. We embrace different cultures, fresh perspectives, and varied skillsets, and we nurture these qualities to develop job-ready individuals.

You’ll learn by experience, collaborating in diverse teams to build communication, problem-solving, and leadership skills, all while growing your network and circle by connecting within the global Hult community. After all, employers want resilient candidates able to navigate the international workplace from the get-go. At Hult, this becomes second nature.

We were awarded a **World Record for “Most Nationalities in a Business Lesson”** for 66 nationalities in one classroom in London, 2024. Diversity is our way of life.

Collaborate on a Global Scale

The value diversity brings to learning is a game-changer, and we know its positive effect on career journeys, but just how diverse is the Hult community? We'll let the facts and figures do the talking:

GLOBAL IMPACT	MULTICULTURAL	GLOBAL MOBILITY	AGE RANGE	NATIONALITIES
172 nationalities and counting in our student body	145 languages are spoken across our campuses	95% of students study at an overseas campus	16-67 the age range of students	14% of students have dual nationalities

Degrees Designed to Challenge

Accredited by the world’s three most prestigious independent bodies—AMBA, AACSB, and EQUIS—our highly practical curriculum is centered on real-world business challenges. Unlock your potential and launch a global career with a range of full-time specialized Master’s in Management degrees that take your skills, connections, and confidence to the next level.

Practical skills require practice

We believe that humans learn best by doing. Mastering a skill—any skill, from riding a bike to leading a team—takes practice. We learn most when we’re working together, free to try—and fail—in a safe environment.

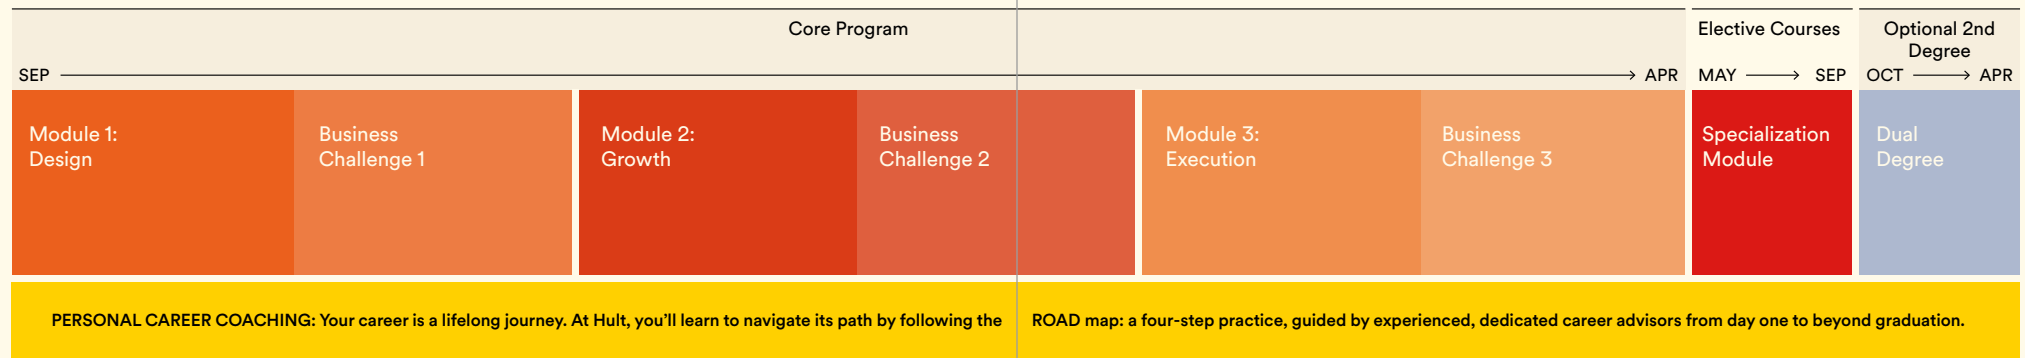

That’s why all our programs are centered around working in diverse teams to solve real-world business challenges. You’ll take the knowledge and skills you learn in class and continually test them—and yourself—

through practical application. And, just like in the real world, you learn far more from failure than success.

By working in diverse teams to solve complex business problems, you continually practice what you’ll be doing in the workplace, so you arrive on the job with the ability to make an impact on day one.

Which Hult Master’s in Management is right for you?

Master's in Management

Prepare to thrive in the global business world with our one-year Master's in Management (MIM) program.

Gain essential business experience in an international environment and develop skills most in-demand with employers worldwide. Practice what you learn, apply knowledge to real-world business challenges, and develop a job-ready skillset valuable to any organization.

Reasons to choose

- Learn innovative business skills as well as meaningful communication and collaboration—all sought after by employers
- Work in diverse, multicultural teams and create an international network for your career journey
- Global campus locations in dynamic business hubs: Boston, London, San Francisco, Dubai

A MIM from Hult could take your career to many places and in many different directions. We work with every student individually to set a targeted career strategy, equip them with the right tools, and guide them on a clear path to achieve their ambitions.

Want to specialize?

Core MIM modules can also be combined with a specialist track, offering additional expertise to pursue specific job goals. You can choose to focus on Analytics, Finance, Marketing, or Entrepreneurship, or opt to follow an Internship track. Find out more on page 18.

Get Your Career on Track

Add a subject specialization or track to complement your core Master's in Management program and upskill for your future career. Each MIM module features track-specific courses, with the final summer term dedicated to your specialist subject.

International Internship*

Gain practical business experience and global insight, traveling overseas to pursue international opportunities that support your future career aims. Our career experts will be on hand to advise on eligible overseas opportunities.

Specialist track course examples:

- Analyzing Business Processes
- Sales Management
- International Internship

Domestic Internship*

Strengthen your professional profile and make valuable business connections for graduation with a placement in your home-campus city. Available to MIM-enrolled students worldwide, regardless of nationality.

Specialist track course examples:

- Analyzing Business Processes
- Sales Management
- Domestic Internship

Find your fit

Discover More

*The MIM with Internship track encompasses a full-time, 8-credit internship over the summer in lieu of elective courses.

Analytics

Add a sought-after analytics focus and earn a highly in-demand STEM degree that'll maximize your career opportunities post-graduation. You'll also qualify for up to three years of post-graduation work authorization (OPT) in the US.*

Specialist track course examples:

- Data Management & SQL*
- Python for Analysts*
- Introduction to Machine Learning & AI*

Entrepreneurship

Innovate and create impact at any global organization with specialist skills at the center of value creation. Experience all elements of product and service creation, delivered via a proven, metrics-driven approach.

Specialist track course examples:

- Entrepreneurial Sales & Marketing
- New Product Development
- Perfecting Your Pitch

Finance

Graduate with the necessary financial, data analysis, and communication skills to flourish in the corporate finance sector.

Specialist track course examples:

- Corporate Finance
- Fintech
- Global Financial Markets

Marketing

Gain the creative, strategic, and executional marketing skills required to thrive in a constantly shifting digital environment and a highly competitive business sector.

Specialist track course examples:

- Brand Management
- Introduction to Pricing Strategies
- Neuromarketing

*The Master's in Management in Analytics is a US STEM-eligible degree, comprised of STEM core requirements, STEM track requirements, and STEM elective requirements. Students on the Analytics track complete approximately 65% or more degree credit requirements under a US STEM degree.

Work on Real-World Business Challenges

Business Challenges are project-based, faculty-led courses that occur at the end of each core module, offering real-life scenarios for applying skills and learning.

Design a new business model, create a pitch presentation, collaborate with peers and clients on an innovation hackathon—whatever the task, put learning into practice, gaining essential experience to pack into your resume. At least one of your four challenges involves working alongside a real-world corporate client, providing valuable business insights from leaders in their field.

A degree that's like the REAL working world!

Previous Business Challenge examples include:

📍 BOSTON

Hilton Hotels & Resorts client challenge:

Students worked as marketing consultants, exploring consumer behavior, loyalty drivers, and competitor performance, pitching their findings and recommendations to the client.

OTHER PREVIOUS BOSTON CLIENTS INCLUDE:
Accenture, Phillips, Edelman, Accion, and Sodexo.

📍 DUBAI

Future Foundation client challenge:

Students addressed three different climate-change challenges as part of their Academic Accelerators program. They worked in diverse teams to provide solutions to the Dubai Future Foundation on food security, waste management, and air quality.

OTHER PREVIOUS DUBAI CLIENTS INCLUDE:
Emirates Group, Porsche, Proctor & Gamble, and Scan Global Logistics.

📍 LONDON

Ferrari client challenge:

Students worked in teams to grow brand presence with new revenue streams, brand extension opportunities, and strategic partnerships, while upholding Ferrari's CSR and sustainability values.

OTHER PREVIOUS LONDON CLIENTS INCLUDE:
Unilever, UK Government, LBW Drinks Ltd, Belhaven Brewery, and PeploBio.

📍 SAN FRANCISCO

Microsoft client challenge:

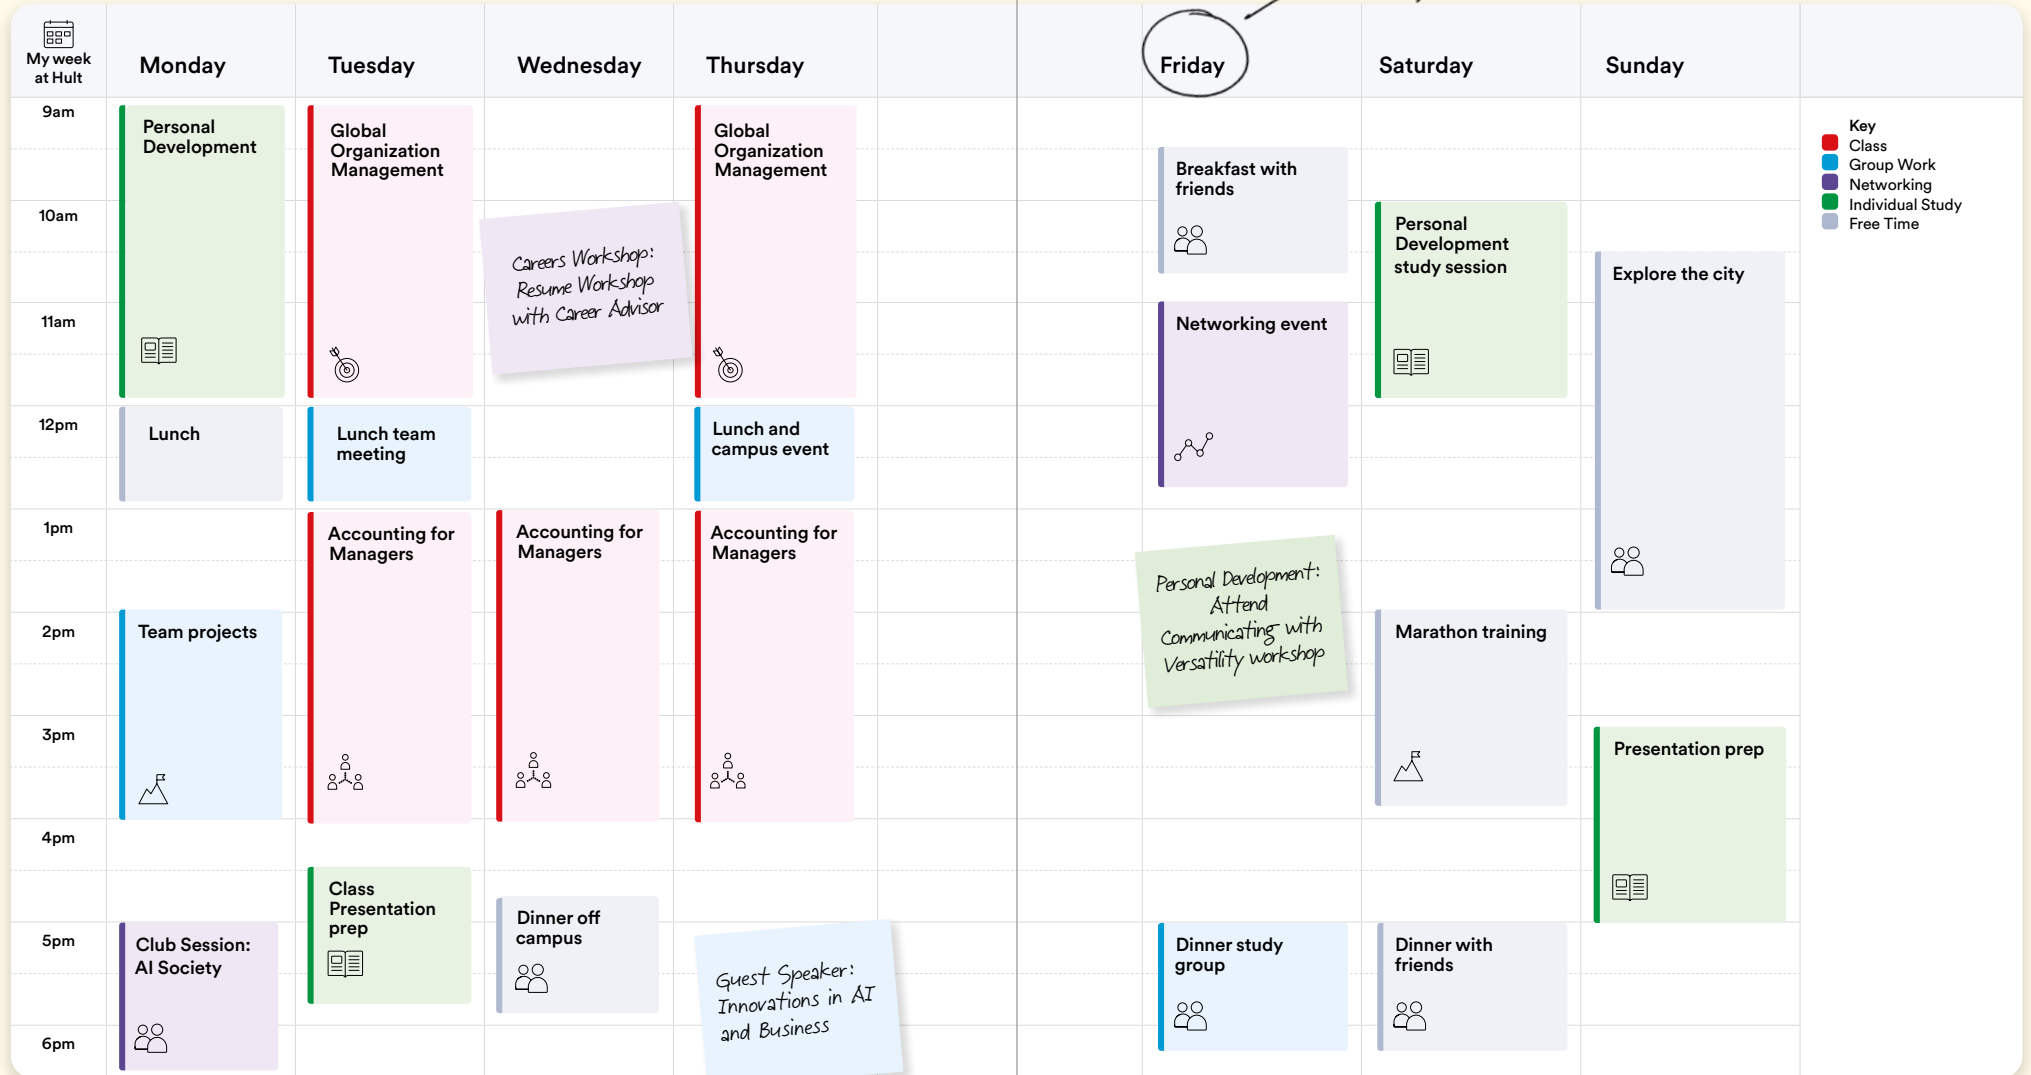

Students were challenged to explore an industry vertical (such as pediatric healthcare) with the aim of identifying and defining all AI companies providing a service in that specialist area. Findings were presented as a team, with a reflective essay to summarize research findings and outcomes.

OTHER PREVIOUS SAN FRANCISCO CLIENTS INCLUDE:
Dollar Tree Stores, Ernst & Young, and Uphold, Inc.

What Will My Week Look Like?

*Sample weekly full-time schedule, subject to change by course or campus.

The snapshot below shows a typical study week for our full-time MIM students. Class time is balanced with plenty of opportunities for development via team sessions, club activities, and networking, as well as time for solo study to complete program coursework.

Choose From 150+ Elective Courses

Have broad interests and wide career goals? Increase your knowledge and skills across subjects by choosing any four elective courses from the full range of 150+ courses on offer every summer.

There's so much more to learning at Hult than what happens in the classroom

When you've completed your core courses, you'll take four elective courses in the summer semester to complete your degree. This is also when you can travel, or "rotate," to different campuses. New electives are added every year to keep options up to date and relevant, and over 150 courses are available to study every summer. With so many options, you can explore a wide variety of subjects and possible career paths.

Popular Master's in Management electives:

Analytics Electives

Introduction to Python Programming
Forecasting & Predicting the Future Using Data
Business Intelligence

Entrepreneurship Electives

Perfecting Your Pitch
Data-Driven Innovation
Disruptive Business Models

Finance Electives

Fintech
Mergers & Acquisitions
Global Financial Markets

Management Electives

hult.edu/alumni/lifelong-learning

The Hult Dual Degree Program

Hult's Dual Degree is the ultimate skills builder. Combine two Hult master's degrees to create a solid foundation for your ideal role post-graduation—with just 18 months of study.

Dual Degree options and timings

Discover more at hult.edu/dual-degree

*Your first degree and/or first-degree track cannot be in the same subject as your Dual Degree, i.e., a MIM in Analytics may not be combined with a Master's in Business Analytics. There are two or three options available for your second degree.

Two Degrees, One Aim: Skill up Faster

What to expect:

- Further expedite your study and earn two degrees in just 18 months
- Earn your core degree and gain specialist knowledge from your second, creating expertise for the job you want
- Benefit from campus rotation—an opportunity to move between global campuses and broaden horizons
- Expand your personal and professional network

What jobs can I get with a Master's in Management Dual Degree?

Choosing the right Dual Degree combination will depend on your career goals, both immediately after graduation and in the longer term. For broad business skills, start with a Master's in Management and then build on this learning with an industry focus for your second degree. If your target career requires specific skills, you can combine degree options accordingly.

Combinations

Hit Your Goals With Active Career Coaching

Career support at Hult is as practical and proactive as our programs—and is integrated directly into the student experience.

Experienced insider coaches

With years of on-the-ground experience as recruiters and headhunters, our coaches have insider expertise and extensive knowledge of the global job market.

Step-by-step guidance

Get personalized, job-focused advice that targets your ideal location, function, and industry and provides you with the actions you need to take to get there.

Active employer networking

From guest speakers to business challenge clients to career fairs to HQ visits, employer networking and corporate exposure are a regular part of campus life.

Practical skills & tools

Join workshops and 1-2-1 sessions on resume writing, online profiles, personal branding, interview skills, mock assessments, and more.

Integrated visa support

Understand your post-graduation work options and get end-to-end support with your visa applications, from securing your student visa to completion of your Optional Practical Training (OPT) in the US or Graduate visa in the UK.

Mandeep Sahota

Hult Career Advisor

Former Recruiter, HR & Talent Acquisition Strategist

10+ years of recruitment experience

HULT What brought you to Hult?

MANDEEP

As a recruiter, I would come across Hult students applying for roles in the companies I was working for and they stood out to me.

H What makes you well suited to advise students?

M I have looked at thousands of resumes during my career and have been involved in all aspects of the hiring cycle, from scoping out job descriptions to understanding business needs and what hiring managers are looking for, as well as what goes into the decision-making process.

H How do you work with students?

M We get to know students through 1-2-1 sessions where we identify what interests them, what their strengths are, and how they can leverage these things to achieve their goals. We have open channels of communication through workshops, drop-ins, social media, and email and encourage engagement as much as possible.

Integrated Support for Work Authorization Post-Graduation

As an international school, we are experts in supporting international students with their visas and work authorization after graduation. Every campus has a visa and compliance team dedicated to helping you understand and obtain the relevant authorization you're eligible for.

It's important that you connect with your visa team early and remain in contact with them throughout your program. The more they know about your goals and expectations after graduation, the better they can support you.

Working in the United States after graduation

Once international students have graduated from a US campus, they can apply for US work authorization known as Optional Practical Training or "OPT."

- Master's in Management graduates can be eligible for **one year of OPT**.
- Master's in Management in Analytics graduates can be eligible for up to **three years of OPT**.

You should be aware that your eligibility for OPT is dependent on you completing your core program at a US campus and securing work within a field directly related to your degree. Your local visa team can help you navigate the complexities of the US visa system and understand your obligations while studying.

Working in the UK after graduation

All international students who have completed their degree in the UK can apply for the **Graduate Immigration Route**. This allows unsponsored graduates to work or look for work in the UK for up to **two years** after they graduate. Your local visa team will support you in applying for the Graduate Route.

Working in the UAE after graduation

International graduates who secure a full-time job within the UAE are eligible for an **employment visa**. Connect with your local visa team as soon as possible and start searching early for an employer who could sponsor you after graduation.

If you provide evidence of having entrepreneurial experience, you may be eligible to apply for a Business visa, which is a long-term visa.

Different programs give you different options

Your eligibility for work authorization after graduation will depend on your program and campus. It's important you understand what your options are before you apply to study at Hult.

Be a Master of Transformation

Masato Eguchi

Class of 2019
 San Francisco
 Dual Degree:
 Master's in International
 Business & Master's in
 Business Analytics

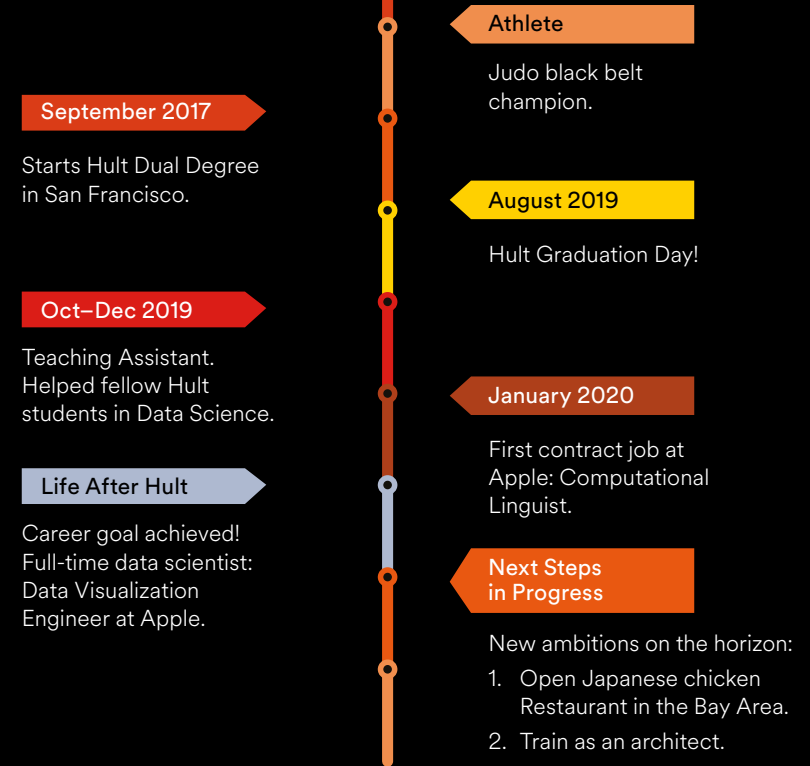

Clear goals are essential to career development, something Hult alum Masato Eguchi knows from experience. But ambition plays a part too, and with Hult's support, Masato achieved his two big career goals—to become a data scientist and work for tech-giant Apple.

Masato made a career pivot after gaining his Intercultural Communication degree from Tokyo in 2017, deciding to pursue data science instead. He knew he wanted to study overseas and Hult San Francisco ticked the boxes: a positive enrollment experience and career guidance from the get-go confirmed he'd made the right decision. Plus, he'd be located in a world-renowned tech hub.

Hult delivered the hard skills Masato needed to achieve his U-turn, and in 2019—his graduation year—he secured a contract job at Apple. However, gaining hard skills was just one factor in his career trajectory. Masato quickly realized that networking, meeting people, and building relationships—all key components of Hult's program—were even more valuable. "That's how I got here," he says.

So where is "here"? In the winter of 2020, just three years after leaving Japan, Masato stepped into a Data Visualization Engineer post at Apple. His two ambitions were achieved, but we know these are two of many for Masato.

Masato Eguchi

Congrats Masato on your career milestones!

Professors From the Real Business World

Achieve your professional goals under the guidance of Hult's highly respected faculty team, professors with real-world experience who know what it takes to thrive in the international business arena.

Omar Romero-Hernandez, PhD

Mexico
Data Analytics & Operations Professor

A Fulbright Scholar and Franz Edelman Award recipient, Dr. Romero-Hernandez uses his expertise to support communities with renewable energy in his native Mexico. He's led several internationally awarded projects and in 2010 was appointed leader of a national task force on economic growth and low carbon emissions, delivering recommendations to the President of Mexico.

Viktoria Dalko, PhD

Hungary
Finance Professor

A leading academic at Harvard and CUNY, Dr. Dalko previously worked as an advisor to the president of the National Bank of Hungary and was chief of staff for the Budget, Tax, and Finance Committee of the Hungarian Parliament. She co-authored *Regulating Competition in Stock Markets* with Nobel Laureate Professor Lawrence Klein and other world-class researchers.

Beau Giannini, PhD

United States
Innovation & Entrepreneurship Professor

An expert in developing technology and data management solutions, Dr. Giannini runs Ternary Intelligence, a computational finance company, and is the founder of Shanghai-based Sinomark Consulting. He previously operated two companies that developed licensing and merchandising programs for global brands and raised 40+ million USD in venture funding to develop software in partnership with IBM to streamline product development. Academic achievements include a PhD in Management Science, MBA in Global Management and Social Entrepreneurship, and a BA in Asian studies.

Nabanita Talukdar, DBA

India
Marketing & Business Analytics Professor

A business-minded marketing and consumer research analyst, Dr. Talukdar is an expert in using SAS, SPSS, PHSTAT, and Excel to develop consumer-based intelligence and KPIs that drive marketing, branding, and product strategies. Her academic achievements include an MBA, MS Corporate Finance, BS Physics & Math, and a doctoral degree in Marketing Analytics, with a focus on consumer behavior, social media, and product marketing.

There's plenty to do during downtime on campus, from social events to student clubs and societies—whatever your passion, you'll find a fit. Forge new friendships, build your professional network, and make lifelong global connections to take on your career journey.

Connect Outside the Classroom

International Finance Association

Take part in debates, team-building exercises, networking, and case study preparations, while hearing from expert guest speakers too.

AI Society

Explore the transformative potential of artificial intelligence in the business world via workshops and challenges.

Women in Business Club

An informal environment to raise awareness, share experiences, and develop strategies for men and women to tackle obstacles in the business world. Hear from guest speakers and explore achievements and challenges encountered on the path to female leadership.

Clubs offer valuable networking opportunities and a chance to expand your horizons outside the classroom

Alumni Networking

Your Hult journey continues long after you graduate. As an alum, you have access to the Hult Alumni Association, a network of over 33,000 alumni in more than 170 countries around the world.

Many former Hultians have benefitted from our global network of graduates, lifelong learning options, and many ways to connect with fellow alumni and business opportunities around the world.

Fees, Scholarships & Financing Options

Your education is undoubtedly one of the most important investments you will ever make. Throughout the application process, we will work closely with you to help you understand the options available to you to finance your degree.

You'll receive personal support throughout the application process

Partial scholarships

Partial scholarships are designed to help us find the best global talent and maximize diversity. Our scholarships cover a wide range of backgrounds, industries, sectors, and nationalities.

- Social Impact Scholarship
- Global Professional Scholarship
- Entrepreneurial Impact Scholarship
- Senior Leader Scholarship
- Women in Business Scholarship

Need-based financial aid

If you have a demonstrated financial need, Hult may be able to help with limited need-based financial aid that is awarded on a case-by-case basis. The financial aid committee looks at the situation of each accepted student and, depending on each candidate's personal circumstances, decides if financial aid will be awarded and at what level.

Loans & government support

Financial institutions in many countries offer education financing specifically to local citizens. These loans are typically repayable after completion of the course, although terms vary widely. Depending on where you are from, you may be eligible for loan and grant opportunities offered by your government. We work with candidates to help them identify suitable financial institutions and government programs.

Payment plans

We have a variety of payment options to fit your situation, including an Early Payment discount. If you choose the Early Payment plan, you are eligible for a 2% discount on your net tuition fees after any scholarships and financial aid are deducted, providing you meet the terms.

Please reach out to our enrollment team for more information at hult.edu/contact

Submit deposit to confirm your place

Entry requirements

- Bachelor's degree or equivalent
- Bachelor's degree in a business-related field OR any bachelor's degree or equivalent + one year of relevant work experience (Marketing, Finance, Analytics tracks)
- Less than three years' work experience
- Proficiency in English (TOEFL/IELTS/PTE/DTE)*
- Successful application process

*English test waivers may apply for native English speakers or if your bachelor's was completed in an English-speaking country. Your English test results can come later in the process if they're not available immediately.

ADMISSIONS

We have enrollment advisors in every region so that you can talk directly to one of our team, wherever you are in the world

Your Personal Assessment Interview

This interview is the centerpiece of the Hult admissions process. We are a future-focused business school and this is the best opportunity you have to share your plans and dreams with us. This is the time for us to really get to know each other in person, over the phone, or via video call.

Not your average classroom ... connections made at Hult create greater opportunities for career development

What our students say:

“Moving to a different country and attending a school with students representing 150+ nationalities has enriched my college experience. I’ve expanded my network and these individuals have become an integral part of my life. I look forward to maintaining these relationships for many more years.”

Rafael Priale

Peru
Class of 2023

“I’ve sharpened my teamwork skills by collaborating with individuals from diverse cultures. I’ve also acquired valuable knowledge to launch products and forged new friendships. This program has instilled a sense of curiosity and adventure, inspiring me to dream big and explore new horizons.”

Alice Asare-Konadu

Ghana
Class of 2023

“The contributions of every student I’ve worked with have played a vital role in my academic and personal achievements. I am grateful to the Hult faculty for their unwavering support. I’m looking forward to reflecting on the knowledge I gained and recognizing that my dream is not something to be pursued in the future—it is something I am currently living.”

Christina Gyllner

Sweden
Class of 2023
