

- ✓ **The David Nazarian College of Business and Economics (DNCBE)** has different enrollment procedures than the other colleges. If you want a business class, please read this!
- DNCBE has strict eligibility rules. In order to qualify for advanced courses, students must meet the course prerequisites... no exceptions!
 - DNCBE has strict deadlines. Once we confirm your class requests for business classes, you will not be able to change them. Also, DNCBE does not allow visiting students to “crash” classes, which means there is no possibility of adding classes after the semester begins.
- ✓ **Related subjects:** CSUN is a large university with over 100 degree programs! You might find a topic you want to study under an unexpected subject/department. For example, students are often surprised to find a business entrepreneurial course under Recreation and Tourism Management (RTM). We invite you to email us for help at SAC-academics@csun.edu: we know the courses at CSUN very well and we may be able to give you suggestions, like these:
