88.4% Overall satisfaction

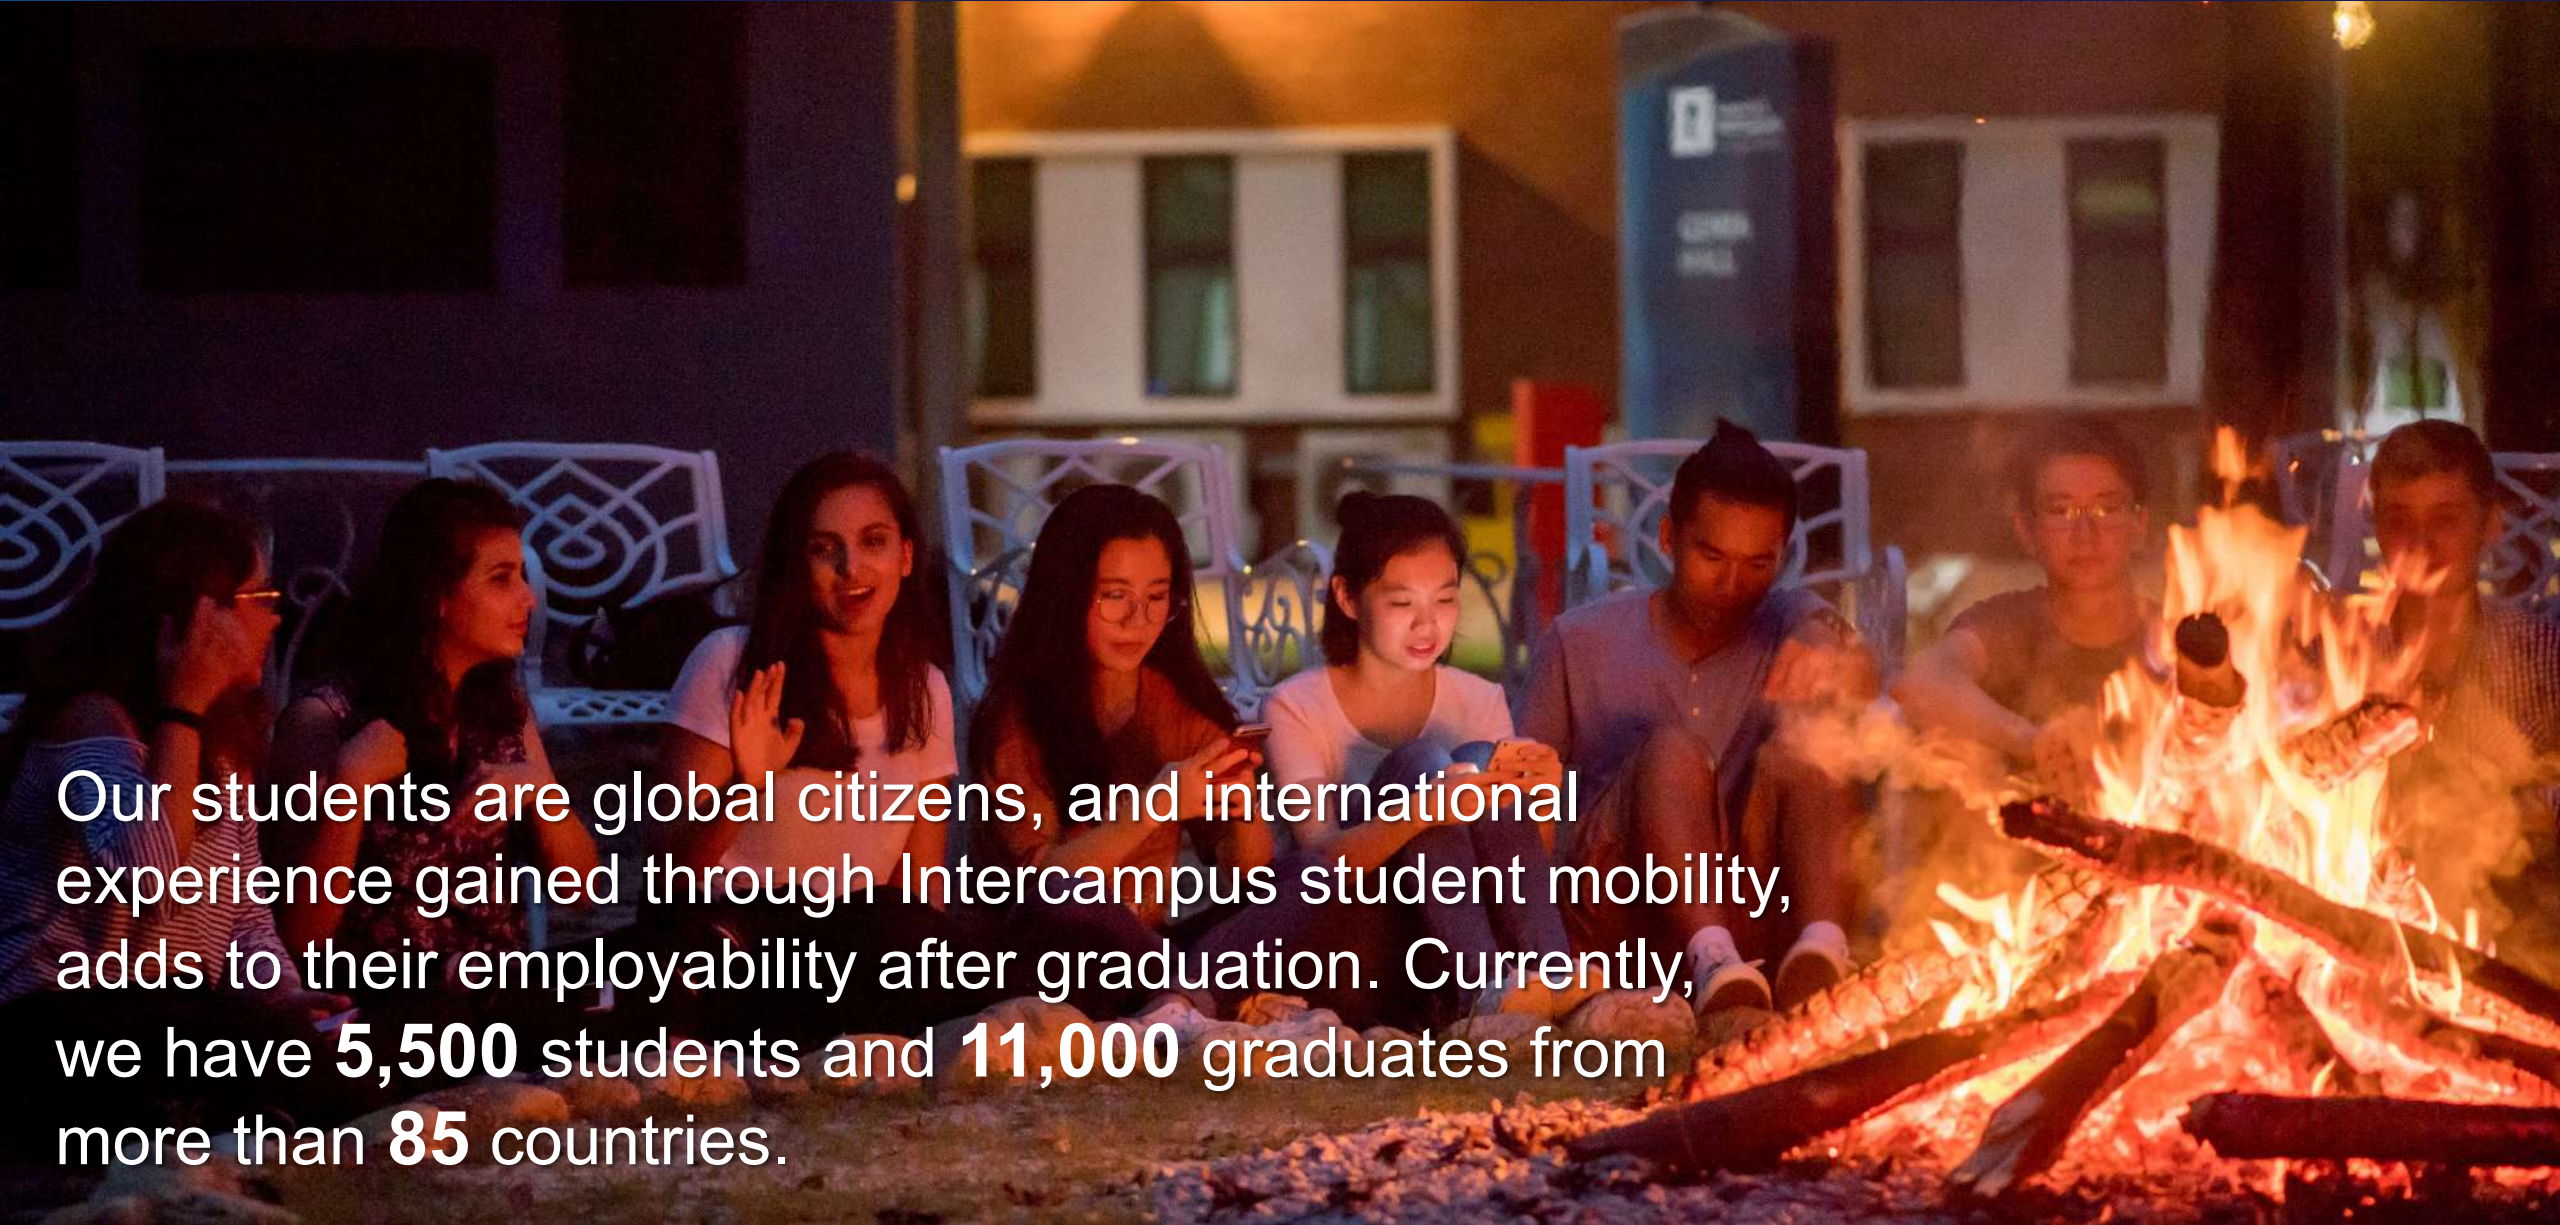

At Nottingham, we put students at the heart of the University. We are committed to ensure that students learn in an academically stimulating environment, and provide opportunities for students' personal development including their entrepreneurial and leadership skills.

Global Engagement

20
years

A group of diverse students are sitting on the ground around a large, bright campfire at night. They are in an outdoor setting with a building and a sign in the background. The fire is made of logs and is very bright, casting a warm glow on the students. Some students are looking at their phones, while others are talking or looking towards the camera. The background shows a building with windows and a sign that says "UNIVERSITY".

Our students are global citizens, and international experience gained through Intercampus student mobility, adds to their employability after graduation. Currently, we have **5,500** students and **11,000** graduates from more than **85** countries.
