MASTER OF SCIENCE IN

Information Technology

Take the next step in your IT career

The coursework in SNHU's M.S. in Information Technology program offers an in-depth look at the latest IT topics and applications. The skills you'll gain in this program will prepare you to step into a variety of leadership roles in the IT field.

Complete your graduate degree on campus in 12–18 months, with 3–5 courses per 16–week term. The topics covered during this time represent an excellent cross-section of the industry. Among the courses you can expect to take at SNHU are:

Degree Courses:

Advanced Information Technology

Object Oriented Application Development

Innovations in Information Technology

Technical Communication

Operating Systems

Information Technology Project and Team Management

Telecommunications and Networking

Principles of Database Design

Capstone in Information Technology

Students may also choose three electives from the areas of Data Analytics, Database Design, Cybersecurity, IT Management, Software Application Development, or Web Design. One elective may be replaced by an internship.

For those who do not meet the minimum requirements, the following foundation courses may be required:

Core Technologies*

This coursework may be exempt based on undergraduate coursework.

Add to your experience and knowledge base with a master's degree in Information Technology. Gain the expertise needed to take the next step in this exciting industry.

ADD to your information technology skill set and knowledge base.

A master's degree in Information Technology is a vital tool in today's competitive business environment. Organizations in every industry seek IT professionals who can think beyond traditional computer programming and basic technology expertise. Learn how to bridge the gaps between communications, IT, and business management, and increase your marketable skills with the M.S. in IT degree program at Southern New Hampshire University.

The M.S. in Information Technology program is taught during the day on our campus in Manchester, N.H. The program has three terms per year—September, January, and May—which allows you to complete the program in 12–18 months. You can start your program during any one of these three terms.
